HSIL'S smart purifier

Expanding its existing line-up of Moon-bow by Hindware air purifiers, HSIL's new air puri-

fier, Vayo is sleek and elegant, and is equipped with a Puri 5 technology, a 5 stage filtration system. This system purifies particles as small as 0.3 micron in size like fine dust, smoke and bacteria, and also has a high grade True Hepa filter (Hepa 13) which filters 8 times smaller particle than PM 2.5 with 99.5% efficiency. Its pre-filter traps large particles like human hair, pet dander and dust. Priced at Rs 21,990, Vayo room air purifier is CB certified product and has been developed to address the deteriorating air quality that many cities across India are facing.
