With the alarmingly high pollution levels in India and deteriorating air quality, Moonbow has you covered with portable car air purifiers that give you best air quality on the go. Moonbow offers car air purifier with four-stage purification process.

Its High Efficiency Particulate Air (HEPA) Filter is 99 per cent efficient in trapping all lung damaging allergens and airborne contaminants down to 0.3 micron in size.

The auto odour sensors sense the bad odour to adjust the fans speed accordingly. The Moonbow car air purifier has aroma diffuser, filter replacement indicator and air quality indicator.
