Axor Starck V

Axor, the designer brand of Hansgrohe SE, introduced its revolutionary washbasin mixer. Growing out of Axor's relentless drive for products that reflect the vitality and emotionality of water, the brand's first transparent mixer was brought to life in collaboration with Philippe Starck. "The vortex phenomenon has occupied my father Klaus Grohe for several years", explains Philippe Grohe, Head of Axor. His intuition that water could visibly be brought to the foreground through the vortex, was the starting point in the development of Axor Starck V.
