### **Moonnbow expands its air purifier range**

**CHANDIGARH:** HSIL under the brand 'Moonnbow' expands its air purifiers' portfolio with the launch of its stylish and compact room air purifier which comes with a PM 2.5 meter and air quality indicator that keeps a track on air quality. Speaking at the launch Rakesh Kaul, President, HSIL Limited said, "At HSIL, it is our endeavor to provide an attractive value proposition to our discerning customers who care about their family well-being. Rising air pollution has led to an increase in sales of air purifierd in India on a year-on-year basis". HSIL aims to capture 12-13 pc market share in next three years.
