#### OPPLE LIGHTING

Oppl's Pipe Table Lamp — a new addition to their range of LED table lamps — is available with a flexible angle that can be twisted as per one's convenience. This portable LED accessory offers a clip that can be attached to any kind of base, like a table or laptop, with a flicker-free and uniform light output. A user can adjust its illumination from 10 per cent to 100 per cent with the touch of a button. It is easily chargeable, comes equipped with a USB jack and can be connected to any power source. It can be charged to a battery capacity of 500 mAh and is enabled with a power capacity of 3W.

#### DR. WIESNER TEST AND AUTOMATION

Dr. Wiesner Test and Automation, a 50-year veteran of the industrial automation industry, marked its entry into the B2C lifestyle consumer segment with the launch of SmartWash, a range of automated bathroom closet seats. A fusion of precision German engineering and local manufacturing in Bangalore, SmartWash fits on most current bathroom commodes and comes with easy instructions for a quick installation. Users will very soon have the option to avail themselves of an installation service with an on-ground channel partner for added convenience. Available in four different variants, it features automated water cleansing, pulse and water massage and odour control.
