Last updated : Friday, January 20, 2017 - 20:13

It is available on e-commerce platforms like Amazon, Snapdeal, Flipkart and offline outlets like Croma.

Moonbow, a new player in the air purifier industry in India, has today launched an Air Purifier AP - A8609UIA. The air purifier is priced at Rs 36,990 and is already available on e-commerce platforms like Amazon, Snapdeal, Flipkart and offline outlets like Croma.

The air purifier comes with a PM 2.5 Indicator and air quality monitor that keeps a track on the air quality in the room in real time. The PM 2.5 indicator can track real-time pollution of a room and display the results accordingly. Moreover, it boasts a Puri 5 technology which is basically a 5-stage filtration process having a Pre-Filter, a True HEPA Filter, an Activated Carbon Filter, UV Light and Refreshing Energizers which further helps demolish every bit of pollutants present in the surroundings.
